

EQUALIZER® Track for grain carts

Unverferth.
Manufacturing Company, Inc.

**More than
72 square feet
of contact with
50" wide track!**

**NOW IN
50-INCH AND
42-INCH
WIDTHS!**

Large-footprint Tracks for Greater Flotation and Yields

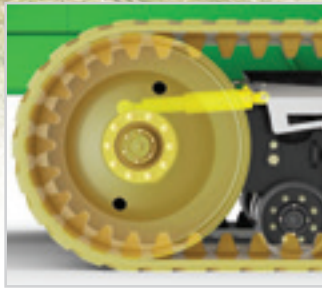

If you think all things are equal when looking at tracked undercarriages for grain carts, you need to look again. Only the Equalizer® tracks from Unverferth offer the largest footprint in the industry and a patented design in which each track independently cambers front to rear, and side to side to closely follow ground contours for optimizing flotation.

EQUALIZER® Track for grain carts

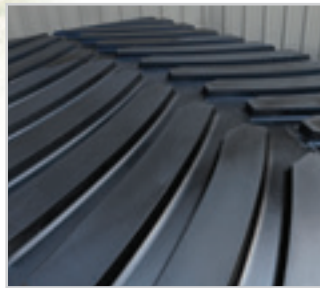

All grain cart track systems are not EQUAL!

Tracks equalize to follow altering terrain – each track independently cambers to follow ground contours for optimum flotation and minimum compaction

Hydraulic tensioning maximizes footprint over the roughest terrain

Exclusive belt design with shallow tread belt pattern for greater flotation and traction

Auto-greaser system for automatic application at more frequent intervals for consistent lubrication of track undercarriage

- 50" or 42"– wide belt with a compact length for enhanced maneuverability and greater flotation
- 40" main idler wheels with 10-bolt hubs for added durability
- Cast pivoting midrollers on each track assembly are on the same plane as the main idler wheels for optimum flotation
- Hydraulic belt tensioning adjustment for easier track alignment, optimum ground contact and even weight distribution
- All hubs are greaseable and feature triple-lip seals with a steel seal guard for optimum lubrication
- Available on select 1,100-bushel and larger Brent, Killbros, Parker and Unverferth brand grain carts

Specifications	2,000 bushel capacity carts	2,000 – 1,300-bushel capacity carts	1,300 – 1,100-bushel capacity carts
Total footprint (pair)	72.92 sq. ft.	61.25 sq. ft.	50.75 sq. ft.
Track width	50"	42"	42"
Track length	148"	148"	131"
Ground contact length	105"	105"	87"
Ground contact area for 1 track	7,400 sq. inches	4,410 sq. inches	3,654 sq. inches
Bogie wheels for 2 tracks	16	16	8
Pivot shaft diameter	7"	7"	6"
Front-to-back pivot	±20°	±20°	±20°
Camber (side-to-side) oscillation	±8°	±8°	±8°
Approx. track wt. for 2 tracks	17,250 lbs.	15,100 lbs.	12,500 lbs.

See your nearest Brent, Killbros, Parker or Unverferth dealer today or unverferth.com for complete details on the Equalizer Track for grain carts.

Due to continuing improvements in the design and manufacture of Unverferth products, all specifications contained herein are subject to change without notice.
