

**Unverferth**® Grain Handling

*Single-auger grain cart*

## **Reach UP. Reach OUT!**

*Unloading the new 1,050-bushel capacity Unverferth model 1050 grain cart is now more convenient and quicker than ever. Its 20" corner-auger positioning, extended reach and height, and hydraulically controlled directional downspout make it faster and more convenient to position the cart for precise grain placement.*

*Model 1050*

The Unverferth model 1050 grain cart makes it easier and faster to unload over the tallest truck, wagon or semi-trailer and target the center of the bed rather than having to stop and reposition the cart. The cart operator can also maintain a more comfortable distance from the target vehicle for flexible and uniform unloading and a quick return to the combine.

- 1,050-bushel capacity with 20"-diameter auger and unloading speed up to 500 bushels per minute
- Patented Flex-Drive auger engagement with synchronized auger flighting for smooth, efficient operation
- .375"-thick Extended-Wear flighting is computer balanced to virtually eliminate any vibration of upper and lower augers
- Spring-loaded top bearing ensures smooth engagement of upper and lower augers for extended life
- High-intensity halogen auger lights for easier nighttime unloading
- Steep 45° sidewalls, 39° front and 34° rear slopes and deep sump for fast, clean and complete unloading
- Gearbox features extra-large 1¾" full-length output shaft for easy handling of the toughest unloading chores, even high-moisture corn
- Shear bolt-protected PTO for reduced maintenance and downtime
- Full primer undercoat, baked-on, high-grade equipment enamel in tractor green or red, and silicone-sealed seams to resist rust and corrosion

## Options

- Heavy-duty rollover Weatherguard tarp to protect load contents
- All data management and scale packages feature 5-point load cells for the greatest accuracy
- UHarvest® data management system for the most complete detailed grain cart harvest data possible:
  - Complete touch-screen operation with tablet or ISO terminal
  - Grower, farm and field information
  - USB data management and/or mobile app
  - Multiple user access
- UHarvest Lite scale package for easy hookup and viewing from the tractor's VT screen
- Models 410 and 520 traditional scale packages for determining crop yield, comparing yield within a field and keeping load weights within legal limits
- Hydraulic drive for use with tractors without PTO

Directional downspout for precise grain placement

Optional Weatherguard rollover tarp

Wheel-operated gravity-flow cleanout door

**See your nearest Unverferth dealer or [umequip.com](http://umequip.com) for complete details on all Unverferth grain carts.**

## Model 1050 specifications\*

Capacity	Auger Size	Unloading Speed (bu/min)	Flighting Thickness	Approx. Empty Weight (lbs.)	Approx. Tongue Weight (lbs.)	Minimum Tractor H.P. Requirements
1,050	20"	500	.375"	12,000	4,700	200+

\*Bushel capacities measured with #2 corn at 15% moisture (56-lb. test weight)
