Introducing

**RIGHT-HAND UNLOAD &
METALLIC GRAY COLOR OPTION**

**FOR THE UNVERFERTH 20-SERIES
DUAL-AUGER GRAIN CARTS**

The Unverferth 20-Series dual-auger grain carts feature large carrying capacities, the fastest unloading speeds and a durable welded construction that ensures harvest moves smoothly. Now these grain carts are available with even more industry-leading options to fit your operation's needs. **For 2026, the 20-Series can be ordered with a left- or right-hand vertical unloading auger, and an all-new metallic gray color offering that matches a wide variety of tractor brands.** Combine these new options with 2,500 to 1,100 bushel hopper capacities, unloading speeds up to 1,000 bushels per minute, pivoting vertical auger and rear hopper access door, and you have a grain cart that handles the largest harvesting operations with ease. Keep harvest moving and return to the combine faster with the 20-Series Unverferth dual-auger grain carts.

**INNOVATING
THE FUTURE OF
AGRICULTURE**

GRAIN HANDLING

20-SERIES

MODELS 2520 • 2020 • 1620 • 1320 • 1120

20-SERIES FEATURES

- Models 2520, 2020, 1620, 1320 and 1120 features hopper capacities of 2,500, 2,000, 1,600, 1,300 and 1,100 bushels to handle the largest harvesting operations.
- The all-welded hopper construction features silicone sealed seams and is available in tractor red, green or the all-new metallic gray paint for a high-quality finish.
- Rear access door and ergonomic ladder permits easy access inside the hopper.
- All models feature a roll-tarp that protects your harvested crop and a 520 scale package is standard on models 2520, 2020 and 1620 for easy weight recording and verification.
- The 20-Series features a dual-auger design combining a 20" horizontal floor auger that feeds the 24" (2520 & 2020) or 22" (1620, 1320 & 1120) vertical auger for a low-profile design and unloading speeds of 1,000 or 850 bushels per minute, respectively.
- The pivoting vertical unloading auger allows the operator to quickly raise the auger when pulling up to a truck and lower it into position for unloading.
- Depending on operator preference, the 20-Series can be ordered with a traditional left-hand unloading auger or a right-hand unload configuration.
- Exclusively designed max-edge auger flighting combines 3/8" thick flighting with 1/4" thick AR400 wear strips in high-volume areas to maximize life.
- Rubber-cushioned tongue suspension provides a smoother ride through the field and standard hydraulic jack on models 2520 and 1620 makes hitching the cart quick and easy.
- The exclusive drivetrain design combines a field-proven belt drive for the horizontal auger with a heavy-duty 90° gearbox for the vertical unloading auger.
- Depending on model, a wide range of undercarriage options are available to meet your operation's needs:
 - Choose from high-flotation single wheels and tires, walking tandem row crop duals, in-line tandem wheels and tires, 36" wide tracks, 42" wide Equalizer® tracks, or for the ultimate in flotation, the 50" wide Equalizer SP track system.
- Options for the 20-Series grain carts include 410 or 520 scales (1320 & 1120), UHarvest Pro data management system, 275-gallon water delivery system, 5-function joystick controller, electric roll tarp operation, remote scale display and more.
