

**Unverferth®** Bulk-Seed Handling

**Seed Pro® Bulk Box Seed Tenders**

## **Model 410XL Seed Pro® Bulk Box Seed Tender**

***Extended Reach For Larger, Faster Planters***

*The Model 410XL Seed Pro® bulk box seed tender is designed exclusively for fast and convenient filling of today's largest, high-capacity center-fill planters. Its 8" x 21' tube and exclusive 12" conveyor belt with cupped rows of offset cleats features 52" of vertical height adjustment and 34 feet of reach for fast, convenient and gentle seed transfer to your planter or drill.*

***Bulk Box Seed Tender***

## Extended Reach For **Larger, Faster Planters**

Cupped rows of offset cleats gently moves seed at up to 25 bushels per minute

Adjustable spring-lift assist for easier conveyor movement

Rounded hood at conveyor top for more gentle seed handling

Heavy-duty steel hinged latches for secure transport

The Model 410XL Seed Pro® bulk box seed tender boosts your planting efficiency three ways – (1) it delivers four, 50-unit seed boxes directly to your planter or drill; (2) the extra-long 21' conveyor offers the added reach necessary for conveniently filling today's largest and fastest center-fill planters; (3) the conveyor pivots for transferring seed from one container to another.

### That's 3-way versatility and triple the value – loading, unloading and transferring.

- Electronic conveyor engagement delivers gentle starts and quickly accelerates to operating speed for extended belt performance
- Large, easy-opening 5" x 6" doors with rubber dampened seed discharge for the gentlest seed movement and preventing overflow of hopper when conveyor is stopped
- Heavy-duty steel hinged latches with locks for securely fastening bulk boxes
- 5' corrugated downspout for total reach of 34'; optional 10' downspout reaches up to 40'
- Conveyor powered by 390 cc (13 HP) Honda gas engine with electric start and controls conveniently located on operating side of the unit
- Two-function wired remote for conveyor on/off and raise/lower
- Brushes and patented side seals on conveyor inlet minimize damage by preventing seed from back feeding
- Undercarriage features heavy-duty steel construction, rubber-cushioned suspension and tandem axles with electric brakes on all four wheels
- Trademarked ivory and tan colors in durable protective coating and silicone sealed seams for long life

### Options

- 3- or 6-function wireless remote control for easier one-person operation
- T&G applicator for applying talc or graphite for optimum planter lubrication
- Gooseneck hitch for greater towing ease
- Model 2410 scale package with large LCD readout for easy viewing
- LED light at top of spout and side of box for easier nighttime unloading
